Hello Morrie -

Attached is a starter document. This is not meant to be a rigid format or order - we recognize that some topics overlap. We tried to include everything without forcing your organization of anything you want to present. This should help get a jump on the conversation - you guys can use your judgment as to how much detail you want to get into for this first meeting and how much of the detail you'd like to reserve for a more technical followup discussion in the future, assuming one might be necessary.

See what you think and feel free to request clarification ---

I'll target a meeting time about 2 to 2.5 weeks from today?

Thanks!

Chrysler Diesel  
SCR Discussion ...
